# IP and Patent Enforcement

We provide cost-efficient enforcement solutions for litigious IP cases.

## 01. *How it works?*

After receiving all the information related to the case, our experts analyze it and provide the best possible solution. Whether it consists of private investigations, negotiations, or the assertion or defense of patent rights in administrative and judicial proceedings, we present an estimation of costs, time, and chances of success.

Analysis of the case

Detection of the most efficient solution

Estimation of costs, time and chances of success

IP rights enforcement

## 02. *Benefits*

- Enforce your IP rights in the most efficient manner.
- Know in advance how much time and money the case will require and the chances of succeeding.

# Patent Term Extension

We request the term extension or compensation of patent validity time lost due to unreasonable delays during the prosecution of the patent.

## 01. *How it works?*

We analyze all information of the case and provide an estimation of costs, time and chances of success, and request the term extension or compensation.

Analysis of the case

Detection of the most efficient solution

Estimation of costs, time and chances of success

Request of term extension or compensation

## 02. *Benefits*

- Recover some of the market time lost during agency review by having your patent remain enforceable or be compensated for the economic benefits that could not be obtained at that stage.

# Plant Variety

We file and prosecute plant variety rights in emerging jurisdictions with savings in time and costs when dealing with one single application in multiple jurisdictions.

## 01. *How it works?*

After receiving all information and particular facts of the case you are facing, our experts design the best strategy to file and prosecute plant variety rights in emerging jurisdictions; and deliver it together with an estimation of costs, time, and chances of success. Our interdisciplinary teams are composed by lawyers and technical experts including agronomist engineers, chemists, biologists, among others.

Analysis of the case

Design of filing strategy

Estimation of costs, time and chances of success

Filing and prosecution of Plant Variety Rights

## 02. *Benefits*

- Obtain an exclusive right to use your new varieties of plants in the most cost-efficient way.
- Earn the right to initiate Court Actions against infringers.

# Data Protection and Privacy

We help you reduce the increasing risks of infringing Data Privacy Regulations and facing monetary sanctions.

## 01. *How it works?*

We assess you on the best way of dealing with data in different jurisdictions, given that it is being regulated and protected in various ways. We create an internal data management system or, if necessary, represent you in breach cases at any jurisdiction.

Analysis of the case

Identification of risks

Creation of internal data management system

Defense in breach cases (if necessary)

## 02. *Benefits*

- Find the most cost-efficient solution for data management at any jurisdiction.
- Avoid infringing data protection and privacy regulations and facing monetary sanctions.

# Regulatory Affairs

We provide cost-efficient solutions to deal with regulated products.

## 01. *How it works?*

We assess you on the production and commercialization regulation of your products in any jurisdiction, providing the most cost-efficient solution to deal with them. Our services range from designing strategies for obtaining approval, to commercialize them and dealing with non-compliance cases.

Analysis of  
the case

Evaluation of  
the most cost-  
efficient  
solution

Legal advice and  
representation  
for regulatory  
affairs

## 02. *Benefits*

- Have your products approved by local authorities.
- Learn the most cost-efficient way of commercializing your products in any jurisdiction.
